Troubleshooting
Unable to turn on: press the power on key for over 1 second. Check if the battery is properly connected. Remove and install it again, retry to turn on. Check if battery is appropriately charged.
Unable to connect network: weak signal. Please try and move to a location with strong signal and try connecting to the network again. Please ensure that you are not beyond the network coverage of service providers.
Poor quality of calling: Please check if the sound volume is tuned improperly in an area with poor receiving condition, like basement, the signal might be weak. Try reaching a location with strong signal reception and call again. While using the mobile phone in the peak period of communication, like commute time, you may be unable to call because of line congestion.
