Malibu - 3 Drawer 2 Door Robe

Assembly Instructions - Please keep for future reference

Dimensions
Width - 74.5cm
Depth - 50cm
Height - 181cm

Important - Please read these instructions fully before starting assembly

If you need help or have damaged or missing parts, call the Customer Helpline: 08456 400800

Issue 3 - 11/10/13
Safety and Care Advice

Important - Please read these instructions fully before starting assembly

• **Warning:** This unit weighs approximately 49kgs. Please lift with care.

• Check you have all the components and tools listed on pages 2 and 3.

• Remove all fittings from the plastic bags and separate them into their groups.

• Keep children and animals away from the work area, small parts could choke if swallowed.

• Parts of the assembly will be easier with 2 people.

• Make sure you have enough space to layout the parts before starting.

• Do not stand or put weight on the product, this could cause damage.

• Assemble the item as close to its final position (in the same room) as possible.

• Assemble on a soft level surface to avoid damaging the unit or your floor (use opened out unit carton).

• We do not recommend the use of power drill/drivers for inserting screws, as this could damage the unit. Only use hand screwdrivers.

• **Safety note:** It is recommended that this unit is secured to a wall using the bracket supplied.

• Dispose of all packaging carefully and responsibly.

Care and maintenance

• Only clean using a damp cloth and mild detergent, do no use bleach or abrasive cleaners.

• From time to time check that there are no loose screws on this unit.

• This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Note: If required the next page can be cut out and used as reference throughout the assembly. Keep this page with these instructions for future reference.
Components - Panels

Please check you have all the panels listed below

1. Left Side (D0124A) (1808 x 496mm)
2. Right Side (D0125A) (1808 x 496mm)
3. Top (D0127A) (714 x 494mm)
4. Base (D0126A) (714 x 478mm)
5. Drawer Front (D0131A) x 3 (710 x 157mm)
6. Drawer Wrap (W162) x 3 (1308 x 95mm)
7. Drawer Base (T162) x 3 (299 x 695mm)
8. Plinth (D0128A) x 2 (714 x 92mm)
9. Rail (D0129A) (714 x 92mm)
10. Hanging Rail (FHR704) (704mm long)
11. Door (D0130A) x 2 (1199 x 353mm)
12. Foldy Back (XB03379) (1219 x 738mm)

If you have damaged or missing components, call the Customer Helpline: 08456 400800 quoting the reference numbers below.
### Components - Fittings

If you have damaged or missing components, call the
**Customer Helpline: 08456 400800 quoting the reference numbers below**

**Please check you have all the fittings listed below**

**Note:** The quantities below are the correct amount to complete the assembly. In some cases more fittings may be supplied than are required.

| A | Wooden dowel (F22) x 12 |
| B | Metal dowel (F901) x 6 |
| C | Nail holder (F149) x 1 |
| D | Nail (F51) x 26 |
| E | Small locking nut (F3) x 6 |
| F | Rail holder (F1014) x 2 |
| G | 40mm Screw (F910) x 12 |
| H | 25mm Screw (F50) x 8 |
| I | Handle (F631) x 8 |
| J | 13mm Screw (F79) x 1 |
| K | 13mm Screw (F63) x 10 |
| L | Bracket (F327) x 1 |
| M | 19mm Connecting bolt (F461) x 2 |
| N | 25mm Connecting sleeve (F432) x 2 |
| O | Drawer stops (F599) x 6 |
| P | Runners (F600) x 3 and (F601) x 3 |
| Q | Hinge (F522) x 4 |

**Tools required**

- Rule
- Spirit level
- Eye protection (when using a hammer or drill)
- Cross-head screwdriver
- Electric drill
- Step ladder
- Square
- Scissors
- Hammer
- Bradawl

**Ruler - Use this ruler to help correctly identify the screws**

Prepare the 3 drawer fronts and wraps

a: Screw 2 metal dowels into the holes on the back of the drawer fronts.

Note: Tighten metal dowels up fully against the panels.

b: Insert 2 small locking nuts into the holes shown on the drawer wrap.

Note: Arrow on locking nut must point towards hole in edge of panel.

Assemble the drawers

a: Place the drawer base into the narrow slot on the drawer wrap. Fold wrap around the base.

b: Turn drawer wrap assembly over and push onto the back of the drawer front.

Turn locking nuts clockwise to secure panels - more than 1/2 a turn.

Note: Due to the manufacturing process, the holes for the locking nut can be on either surface of the drawer sides.

Note: The locking nuts can be on either surface of the drawer sides.

If you have damaged or missing components, call the Customer Helpline: 08456 400800 quoting the reference numbers below.
Step 3

Fit the drawer stops

Carefully break off the 2 drawer stops (F599) from each pair of the drawer runners P.

Push the drawer stops fully through the drawer wraps 6 from the inside.

Step 4

Attach the handles

Attach a handle 1 to each drawer front 5 using screw H.

Note: Do not overtighten the screw.
Assembly Instructions

Step 5

Prepare the left and right side

Separate runners P.

**a:** Push fit 3 left runners P marked ‘L’ into the holes shown on left side [1].

**Note:** Runners must be fitted flat against the panel. If necessary gently tap into final position.

Fit 2 hinge plates O making sure that the slot is facing towards the finished front edge.

Push rail holder F into the hole shown. Make sure that it is fitted straight, in line with the panel edges and then secure with screw K.

**b:** Push fit 3 right runners P marked ‘R’ into the holes shown on right side [2].

Fit 2 hinge plates O making sure that the slot is facing towards the finished front edge.

Push rail holder F into the hole shown. Make sure that it is fitted straight, in line with the panel edges and then secure with screw K.
Assembly Instructions

Step 6

Prepare top and base

a: Tap 2 wooden dowels A into the ends of the top 3.

b: Tap 2 wooden dowels A into the ends of the base 4.

---

Step 7

Fit the top and base to the right side

Attach the top 3 to the right side 2 using the dowel already fitted and secure with 2 screws G.

Attach the base 4 to the right side 2 using the dowel already fitted and secure with 2 screws G.
Assembly Instructions

Step 8

Prepare the 2 plinths and the rail

a: Tap 2 wooden dowels A into the ends of the 2 plinths 8.

b: Tap 4 wooden dowels A into the ends of the rail 9.

Step 9

Fit the rail

Attach the rail 9 to the right side 2 using the dowels already fitted.
**Assembly Instructions**

**Step 10**

**Fit the 2 plinths**

*2 people are needed here*

Attach the 2 plinths [8] to the right side [2] using the dowel already fitted to them and secure with screws [G].

*Note:* Support the plinth [8] at the back of the unit until the left side has been fitted in the next stage.

**Step 11**

**Fit the left side**

Push the left side [1] onto the unit and secure with 6 screws [G].
**Assembly Instructions**

**Step 12**

**Fit the foldy back**

**a:** Square up the unit by making sure that measurement x to x equals y to y.

**b:** Place the foldy back 12 down onto the unit, as shown.

Use the nail guide c to hold the nails d vertical and at the correct distance whilst you nail around the outside of the foldy back 12.

*Note:* Nails should be spaced about 150mm apart.

**Stand the unit up for the next stage.**

*Warning:* The robe is heavy. Lift with care.

**Step 13**

**Fit the hanging rail and drawers**

**a:** Push hanging rail 10 into the rail holders f fitted to the side panels.

**b:** Lift the front of the drawer whilst inserting to overcome the ‘stop’ system.

*Note:* To ensure that your drawers run smoothly, spray a small amount of furniture polish into the grooves.
Assembly Instructions

Step 14

**Prepare the 2 doors**

Push fit 2 hinges (11) into each door.

Secure each hinge with 2 screws (K).

*Note:* Before securing with the screws, make sure that the hinges are positioned at 90 degrees with the front edge of the door.

Step 15

**Drill 1 handle hole in each door**

*Important:* Please follow these instructions carefully.

Lay the 2 doors down onto a smooth surface.

Check that the hinges (11) and holes are in the same place as the diagrams.

*Note:* We recommend the use of a small piece of waste wood, placed behind the hole while drilling, to reduce the possibility of any breakout.

Using the pilot hole in the rear face of the door, drill through the hole indicated opposite, using a 2.5mm diameter drill.

Turn the door over and open out the 2.5mm hole that you have just drilled by drilling back through it with a 5mm drill.

ONLY drill this hole in 1 door

DO NOT drill this hole

Small piece of waste wood

This will be the LEFT DOOR

This will be the RIGHT DOOR

ONLY drill this hole in 1 door

DO NOT drill this hole

Small piece of waste wood
Assembly Instructions

Step 16

Fit doors and handles

2 people are needed here

*Note:* The easiest way to attach the doors is to fit the top hinge first, then align and fit the bottom hinge.

**a:** Push the hinge onto the front part of the hinge plate.

**b:** Keep the hinge FLAT against the hinge plate as you slide it across as far as it will go. Tighten screw A.

**c:** The hinge must be flat against the hinge plate prior to any adjustment.

**d:** The hinge must NOT be AT AN ANGLE to the hinge plate when assembled. This would indicate that the recess at the bottom of screw B had not located in the slot in the hinge plate and the hinge would not be secure. Remove the hinge from the hinge plate and then re-assemble being careful to follow instructions a-c.

**e:** Attach a handle to each of the doors using screw.

*Note:* Do not overtighten screw.
Adjust the doors if required

a: Before adjusting the doors, use a spirit level to check the base (or top) of the unit is level, front-to-back and side-to-side in the 3 positions shown. Use suitable packing pieces (not supplied) to make the unit level BEFORE making any adjustment to the hinges, as shown.

b: Height adjustment.
Loosen screws A on hinge plates and move door up or down as required. Retighten screw A.

c: Forward and Back adjustment.
Loosen screw B on hinge plate and move door in or out as required. Retighten screw B.

d: Sideways adjustment.
To move door ‘out’ loosen screw C. To move door ‘in’ tighten screw C.
Assembly Instructions

Step 18

Joining units together

Fittings have been supplied so you are able to join units together.

Make sure that your first unit is level.

Push the other unit up against the first unit and ensure both units are level.

Check that the ends are flush and in line, then clamp them together.

Using a 5mm drill bit, drill through the 2 holes (shown circled) in the side panel into the adjoining side panel of the other unit.

Push the connecting sleeves N into the holes and then screw the connecting bolts M in from the other side.
**Step 19**

**Attach the bracket**

To prevent possible overbalancing, we recommend that this unit is secured to a suitable wall by use of the bracket fitted to the top of the unit.

Fixings are not supplied, as they will need to suit the wall type and the length of screw will depend on the distance from the back of the unit to the wall.

Fix the bracket loosely onto the top of the unit using screw and mark the wall for the wall fixing.

Swivel the bracket away from the wall and drill a hole in the wall using a suitable drill bit and fit your wall fixing.

Swivel the bracket back and fix the bracket to the wall, then tighten Screw.

**Note:** Take care when drilling the wall that you do not drill into any pipes, wires etc. If in doubt, consult an expert.

**Warning:** The robe is heavy. Lift with care.

*Assembly is complete*
