Assembly Instructions

Step 6
The shoe rack over a door using the brackets as shown. Alternatively, the shoe rack may be mounted on a wall or screwed to the back of a door.

Step 7 (Optional)
To mount on a wall or door:

1. Snap or saw the top of each bracket as shown.
2. Mark the wall or door through the holes in brackets, then drill the wall or door at the marked points using an appropriate sized drill bit (if drilling wood use only a small drill to make pilot holes).

If mounting on a door, screw each bracket to the door using 2 screws as shown.

If mounting on a wall:

1. Insert 1 wall plug into each hole and screw each bracket to the wall using 2 x screw as shown.

Note: see the back cover for more information on wall mounting and the suitable use of the supplied rawl plugs.

Warning: Before drilling, check for hidden pipes and cables.

A Guide to Wall Mounting & Fixings

**IMPORTANT:** When drilling into walls always check that there are no hidden wires or pipes etc. Make sure that the screws and wall plugs being used are suitable for supporting your unit. Consult a qualified tradesperson if you are unsure.

**HINTS:**
1. General Rule Always use a larger screw and wall plug if you are not sure.
2. Ensure you use the recommended drill bit to match the wall plug and hole size.
3. Ensure you drill the hole horizontally, do not tilt the drill or enlarge the holes.
4. Take extra care when drilling in the wall, ceiling or ceramic tiles.
5. Ensure all plugs are well fitted and are a tight fit in the drilled hole.

**Types of Wall**
You can use one of the following types of wall plug if your walls are:

- Made of brick, breeze block, concrete, stonework or plasterboard.
- Made of plastic or wood

**No. 1 “Standard” Wall Plug**
- For use with plaster board partitions or hollow wooden doors.
- For use with wall hangings such as TV & radio, shelves, speakers, satellite dishes etc.

**No. 2 “General Purpose” Wall Plug**
- For use with plaster board partitions or hollow wooden doors.
- For use with heavy loads such as TV & radio, shelves, speakers, satellite dishes etc.

**No. 3 “Cavity Fixing” Wall Plug**
- For use with hollow doors such as TV & radio, shelves, speakers, satellite dishes etc.

**No. 4 “Cavity Fixing - Heavy Duty” Wall Plug**
- For use with heavy loads such as shelving, wall cabinets, coat racks.

**No. 5 “Hammer Fixing” Wall Plug**
- For use with walls stuck with plaster etc. The hammer fixing allows it to be fixed to the wall rather than the plaster board. Always check the fixing is secure to the retaining wall.

**CARE AND MAINTENANCE**

**SAFETY**
Always check the fixing and bracket is secure to your wall and around the home.

**FITTING**
From time to time check the fixing to ensure the wall plugs or screws are secure.

**Dimensions**
- Width: 61cm
- Depth: 13.3cm
- Height: 162.5cm

**Important – Please read these instructions fully before starting assembly.**
Important – Please read these instructions fully before starting assembly.

Safety and Care Advice

• Check you have all the components and tools listed opposite.
• Remove all fittings from the plastic bags and separate them into their groups.
• Keep children and animals away from the work area, small parts could choke if swallowed.
• Make sure you have enough space to layout the parts before starting.
• Do not stand or put weight on the product, this could cause damage.
• Assemble the item as close to its final position (in the same room) as possible.
• Assemble on a soft level surface to avoid damaging the unit or your floor.
• Parts of the assembly will be easier with 2 people.
• We do not recommend the use of power drill/drivers for inserting screws, as this could damage the unit. Only use hand screwdrivers.
• Dispose of all packaging carefully and responsibly.

Care and maintenance

• Only clean using a damp cloth and mild detergent, do not use bleach or abrasive cleaners.
• From time to time check that there are no loose screws on this unit.
• This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Components - Panels

Please check you have all the panels listed below.

1. Bottom upright x 2 (52(h) x 10.2(d) cm)
2. Middle upright x 2 (57(h) cm)
3. Top upright x 2 (52(h) x 10.2(d) cm)
4. Shoe rack x 6 (12.5(h) x 55.7(w) cm)

Assembly Instructions

Step 1
Connect 1 x middle upright 2 to 1 x bottom upright 1 as shown.
Note: ensure that the locating pin clicks into place.

Step 2
Connect 1 x top upright 3 to 1 x middle upright 2 as shown.
Note: ensure that the locating pin clicks into place.
Repeat for remaining upright pieces to complete a second upright assembly.

Step 3
Insert 6 x shoe rack 4 into the upright assemblies as shown.

Step 4
Fix 2 x end cap B over the bottom ends of both uprights.

Step 5
Slide 2 x bracket A over the top ends of both uprights. Fix each bracket in place with 1 x end cap B as shown.

Tools required

Phillips screwdriver (medium & large)
Drill (for wall drilling only)

Components - Fittings

Please check you have all the fittings listed below.

If you have damaged or missing components, call the Customer Helpline: 0845 640 0800

Note: The quantities below are the correct amount to complete the assembly. In some cases more fittings may be supplied than are required.

A Bracket x 2
B End cap x 4
C Screw x 4
D Wall plug x 4

Ruler – Use this ruler to help correctly identify the screws

Components - Panels

1. Bottom upright x 2 (52(h) x 10.2(d) cm)
2. Middle upright x 2 (57(h) cm)
3. Top upright x 2 (52(h) x 10.2(d) cm)
4. Shoe rack x 6 (12.5(h) x 55.7(w) cm)
